Appreciation is expressed for permission to reprint existing abstracts and to prepare and disseminate original summaries of articles and book reviews appearing in other publications without abstracts.

Subscriptions	Institutions	$ 60/year (five issues)	$ 15.00/issue
	Individuals	$ 30/year (five issues)	$ 7.50/issue
Cumulative Index	Volumes I-V (1967-1971)		$ 60.00/set

During the calendar year in which a volume is published, and for three months thereafter, a special discount rate is available for individuals who pay in advance by personal check. Institutional payment will not be accepted in payment of individual orders, nor will orders at the individual rate be accepted from subscription agencies. No such individual orders will be sent to institutional addresses.

Volumes I and II are offered by Mouton and Co. n.v., P.O. Box 482, The Hague-2072, The Netherlands, at $22.50 a volume. Volume I is also available from Appleton-Century Crofts, 440 Park Avenue South, New York 10016 at $22.50 a volume. Orders for the cumulative index and for issues from Volume III forward ($45/volume through Volume V) should be addressed to:

LLBA, Suite 256, City Center Building, 220 East Huron Street, Ann Arbor, Michigan 48108.

LLBA is published quarterly in January, April, July, and October.

Advisory Committee

Guy Capelle, Maître de Conférences, Paris VIII

Gary Claypool, Manager, Office of Contract Administration

Allan R. Keiler, Associate Professor of Linguistics

James E. Lesch, Assistant to the Vice President for Academic Affairs

Irwin Pollack, Professor of Psychology; Research Psychologist, Mental Health Research Institute

Ronald Wardhaugh, Professor of Linguistics; Director, English Language Institute; Chairman, Doctoral Program in Psycholinguistics

PREFACE

This scholarly quarterly reference work, which first appeared in January, 1967, provides access–comprehensive, current, selective–to the world's literature in language and language behavior.

–whatever the disciplinary focus
–whatever the country of origin
–whatever the language in which it is written.

Under the auspices of The University of Michigan, *LLBA* publishes informative English language abstracts of articles as a service to all researchers and practitioners in the various disciplines concerned with the nature and use of language.

LLBA is COMPREHENSIVE–almost one thousand publications (periodicals, progress and technical reports, occasional papers, monographs, and conference proceedings) in over thirty languages are now regularly screened.

LLBA is CURRENT–each issue contains abstracts of all relevant articles received up to one month prior to the date of publication.

LLBA is SELECTIVE–

It exhaustively covers articles that report:

(1) studies in which the independent or dependent variables, or both, are verbal;

(2) studies whose experimental design parallels that employed in language studies;

(3) general theoretical contributions in the twenty-five disciplines listed on the cover; and

(4) studies influenced by these theoretical contributions.

It generally excludes articles that report:

(1) studies in any of the twenty-five disciplines that are not of interest to scholars working in any of the other disciplines;

(2) studies primarily of a popular rather than a scholarly nature; and

(3) studies whose interest is primarily historical.

In addition to numerically ordered abstracts of articles satisfying the above criteria, each issue of *LLBA* contains four indices: an author name index, a subject index, a book review index, and a source publication index. Subscription to *LLBA* includes four issues of abstracts and an annual cumulative index. Issues published prior to 1972 contain only author name and source publication indices, although a four-part cumulative index to the first five volumes (1967-1971) is available.

There are four separate indices in this two-part cumulative index to the first five volumes of *Language and Language Behavior Abstracts* (Volumes I to V, 1967-1971). Part I of the index contains the author index, book review index, and source publication index. Part II contains the subject index. Each reference to an abstract contained in *LLBA* is by volume, page, and position on the page. Reference to volume is by Roman numeral, to page by Arabic numeral, and to page position by letter (an A refers to the first abstract which *starts* on a page, a B to the second abstract which *starts* on a page, etc.)

The source publication index lists the current subscription address for every publication from which one or more articles were abstracted in the first five volumes of *LLBA*. The number of articles abstracted from each source publication is listed by *LLBA* volume number.
